You are cordially invited to a Tysons-Carderock Chapter Technical Dinner Presentation:

Tuesday, February 23, 2016

Flexible Warships in Foreign Navies: Applications for Future U.S. Navy Surface Combatants
Presented by
Mr. Nicholas Abbott & Mr. Darren Leap

Please join us for a brief by Mr. Nicholas Abbott and Mr. Darren Leap on Foreign Flexible Warships. This presentation is a summary of the paper “Flexible Warships in Foreign Navies: Applications for Future U.S. Navy Surface Combatants” that was included in ASNE Day 2015 Program. This paper documents the success of the Flexible Warship concept in 6 European Navies over the past 30 years and is extremely relevant to the upcoming ASNE Day. On March 3, 2016 a special panel of flag officers and executives from the above foreign navies will present their views on flexible ships as part of ASNE Day 2016.

Location:
Brio Tuscan Grille of Tyson’s Corner
7854 Tyson’s Corner Center, McLean, VA 22102-4605
Free Parking or Accessible via The Silver Line – Tyson’s Corner Stop

Meeting Fee:
ASNE or SNAME Members: $39
Non-Member: $45
Students: $25

Agenda:
1730 - Networking/Cash Bar
1830 - Dinner
1915 - Presentation

*Please select entrée with registration.

Speaker Bios:

Nicholas Abbott has been the Manager of Business Operations at AOC, Incorporated over the last 7 years. Among his many duties at AOC, Mr. Abbott has been a key developer of the master database for surface ship modularity studies conducted over the last 40 years.

Darren H. Leap is the Systems Engineering Department Manager at AOC, Inc. He has experience in developing equipment and systems for the Navy and Marine Corps dating back to the early 90s. Prior to AOC, Mr. Leap worked as a Product Team Lead for General Dynamics. His experiences have provided him with insights into the complexity of systems integration in high density environments. He has degrees in Aerospace and Mechanical Engineering from the University of Maryland.
