

The American Society of Naval Engineers, Gulf Coast Section and
The Society of Naval Architects & Marine Engineers present:

September 2019 Section Meeting
The US Navy's Next Generation of
Landing Craft - LCU 1700
Dan Musmanno, Swiftships, LLC

Dan will present a brief history of landing craft construction in the New Orleans area and landing craft use in modern Amphibious Warfare Operations. His main focus will be on the design development and imminent construction of the LCU 1700 at Swiftships Shipyard, Morgan City, LA. Among other elements, he will touch on design & material procurement challenges.

Dan is the Executive Vice President of Business Development at Swiftships and also the initial LCU 1700 Program Manager. Dan is a graduate of the US Naval Academy with a BS in Aerospace Engineering and later received a masters degree in Engineering Administration.
